Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A customer applying for a credit card through an online banking system.	Apply for a credit card quickly and determine whether my application is likely to be approved.	I am unsure whether I satisfy the bank's eligibility requirements, and manual verification takes considerable time.	Banks evaluate multiple factors such as income, employment, family details, education, and financial information before making an approval decision.	Uncertain and anxious about the outcome of my credit card application and the waiting time.
