Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS I want a quick credit card approval process. I hope my application gets approved. I need a transparent and fair evaluation.	THINKS Do I satisfy the bank's eligibility criteria? Will my income and credit history be sufficient? How long will the approval process take?
PERSONA NAME <i>(Credit Card Applicant)</i>	
DOES Submits personal and financial details. Uploads required documents. Waits for the bank's approval decision.	FEELS Anxious about the approval result. Frustrated by lengthy manual verification. Happy and confident if approved quickly.
