

Code-Layout, Readability and Reusability

Date	10 July 2026
Team ID	XXXXXX
Project Name	Credit Card Approval Prediction
Maximum Marks	5 Marks

Code-Layout, Readability and Reusability:

This document evaluates the quality of the codebase in terms of its structure, readability, and reusability. Well-organized code with proper naming conventions, comments, and modular design ensures that the project is maintainable and can be extended or reused in future development.

Code Layout Checklist:

S.No	Code Quality Parameter	Description	Followed (Yes / No / Partial)	Remarks
1	Consistent Indentation	Uniform spacing/tabs used throughout the code.	Yes	Proper indentation is maintained throughout the project.
2	Proper File Structure	Files and folders are logically organized.	Yes	Files are organized into templates, static, and application files.
3	Meaningful Variable Names	Variables reflect their purpose clearly	Yes	Variables use descriptive names for better readability.
4	Function / Method Names	Functions are descriptively named	Yes	Functions such as predict(), history(), and dashboard() clearly describe their purpose.
5	Code Comments	Inline and block comments explain logic	Yes	Important sections are documented with comments.
6	Modular Design	Code is split into reusable functions/modules	Yes	Code is divided into reusable functions and routes.
7	No Redundant Code	Duplicate or unused code is removed	Yes	Duplicate and unnecessary code has been removed.
8	Error Handling	Exceptions and errors are handled gracefully	Partial	Basic validation is implemented, but advanced exception handling can be improved.

Reusable Components / Modules:

S.No	Component / Module Name	Language / Technology	Where Reused	Reusability Level (High / Medium / Low)
1	get_connection()	Python, SQLite	Database Connection	High
2	predict()	Flask, Python	Credit Card Prediction	High
3	history()	Flask	Prediction History	Medium
4	dashboard()	Flask, Matplotlib	Dashboard Generation	High
5	HTML Templates	HTML, CSS	User Interface	High

Overall Code Quality Assessment:

Aspect	Rating (1-5)	Comments
Code Layout & Structure	5	Code is well organized with a clear folder structure.
Readability	5	Variable names, functions, and formatting improve readability.
Reusability	5	Modular functions can be reused across the application.
Documentation / Comments	4	Basic comments are included; more detailed documentation can be added.
Overall Score	4.75/5	Well-structured, readable, and reusable Flask-based ML project.
